The Jewels4Hope Story

When long time City of Hope supporters Marton & Bluma Stark decided to leave the jewelry business after 50 years, they had something other than retirement on their minds.

Envisioning a way for everyone to "Do Good" and "Look Good" doing it, the Starks approached City of Hope with a simple idea: to help increase donations by selling their handcrafted jewelry at wholesale prices - with 20 percent of every purchase going directly to City of Hope!

Jewels4Hope is a labor of love and we hope you will help us grow it into an ongoing source of support for City of Hope and the vital work they do.
